Representative Kuglitsch Pleased with Governor Walker's Address

Madison—Representative Mike Kuglitsch (R-New Berlin) released the following statement following Governor Scott Walker's State of the State address this evening:

"It is great to hear Governor Scott Walker's fifth State of the State Address. It is a privilege to work alongside him and his platform that has continually kept Wisconsin moving forward.

"Great strides have been taken and Wisconsin truly has made a strong comeback since 2010. Our unemployment numbers continue to decrease and Wisconsin workers are starting to see more money in their paychecks thanks to the work Governor Walker has done since taking office.

"As Republicans, we are always striving to shrink our Government and I'm happy to see that Governor Walker has made that a goal this session. As a businessman, I am always looking for ways to improve our investments. We must take the tools we use in the private sector and use them in Madison to create the most efficient and effective government possible.

"I am also pleased to see that our Governor is working with Attorney General Brad Schimel to prepare a lawsuit against the proposed EPA rules that go into effect in the near future. Wisconsin families and businesses cannot afford more regulations that will cost the state millions of dollars and put thousands of jobs in jeopardy.

"Our financial condition has improved greatly with our Republican run Legislature and Executive Branches and we must once again look at ways to construct a balanced and fair budget for all Wisconsinites.

"Governor Walker is certainly correct in saying the State of the State is strong. I look forward to another successful year with Scott Walker as our Governor."
